FROM KAREEN...

It has been a blessing and honor to serve children in a different way than I have been used to in the last 30+ years. Working with other occupational therapy providers has allowed me to teach them what I have learned formally and through experience. It is daunting to start a business when you are a little OT from Ohio and should be retiring! However, my passion for enabling and empowering others has driven me to keep going!

Upon obtaining the "official" LLC (Yes, someone I knew said Karen Robbins and Associates is a good name and I went with it!), I learned how to set up a website and went through the task of becoming an AOTA-approved provider. I began designing courses, researching, marketing, and saying yes to all speaking and consultation opportunities I could. Feedback is important to me and the success of courses! I have implemented the recommended changes to the courses and resources!

I have learned I can do this! My years as a pediatric, school-based OT, and Educational Administrator have given me the best experiences and opportunities for learning! It is such an honor to have opportunities to share what I know! I have learned I am human and cannot do everything perfectly. And that's okay! I have learned there is truth to the joy of being a grandparent!

I am excited for the future as I am developing an online and on-demand course for teachers and those in the education arena on sensory processing (Simply Sensory Modules). I want to continually build a "library" of resources for tiered intervention for OTs and SLPs. There is so much more coming!

Karen Robbins MS OTR/L
KAREEN ROBBINS MS OTR/L
FOUNDER

American
Occupational Therapy
Association

Approved Provider

AOTA APPROVED PROVIDER (0625) SINCE 12/10/21

Current courses approved:

1. What's In Your Sensory Processing Assessment Toolbox? #3757
2. What's In Your Sensory Processing Intervention Toolbox?# 3758
3. Navigating Tiered Intervention and Thrive! # 6407
4. Addressing Spirituality in Client Centered Care #5083

Have also presented to:

Navigating Tiered Intervention and Thrive!

- * Educational Resources, Inc
- * Various School Districts
- * Ohio Association of Pupil Service Administrators (OAPSA)
- * OT Schoolhouse Collaborative

- Over 73 OT's participated in AOTA Approved Courses in from 1/2022-8/2023
- Over 521 professionals participated in courses taught by Kareen from 1/2022-8/2023
- OT Consultative Services were provided for 22 school districts
- OT Services were provided for 23 children and families

Sensory Processing Assessment Course Feedback

“Very organized format with so much helpful information included. The decision tree is so very very helpful. Thank you for providing so many practical examples.”

“Super helpful course in helping to understand what to look for and how to support it with interventions.”

“This honestly is one of the absolute BEST continuing education classes I have ever taken. I feel so much more comfortable in my ability to truly assess sensory processing now and honestly, for the first time, am truly understanding the relationship between primitive reflexes and antigravity positions to sensory. Thank you so much for the rich content!”

“Kareen provided very thorough knowledge and course content related to assessing sensory dysfunction. I feel better suited to identify and appropriately assess sensory dysfunction in the children I serve.”

“I always leave Kareen's courses feeling like I have gained tools that I can use at work the very next day!”

Overall Satisfaction Rating

4.7 out of 5

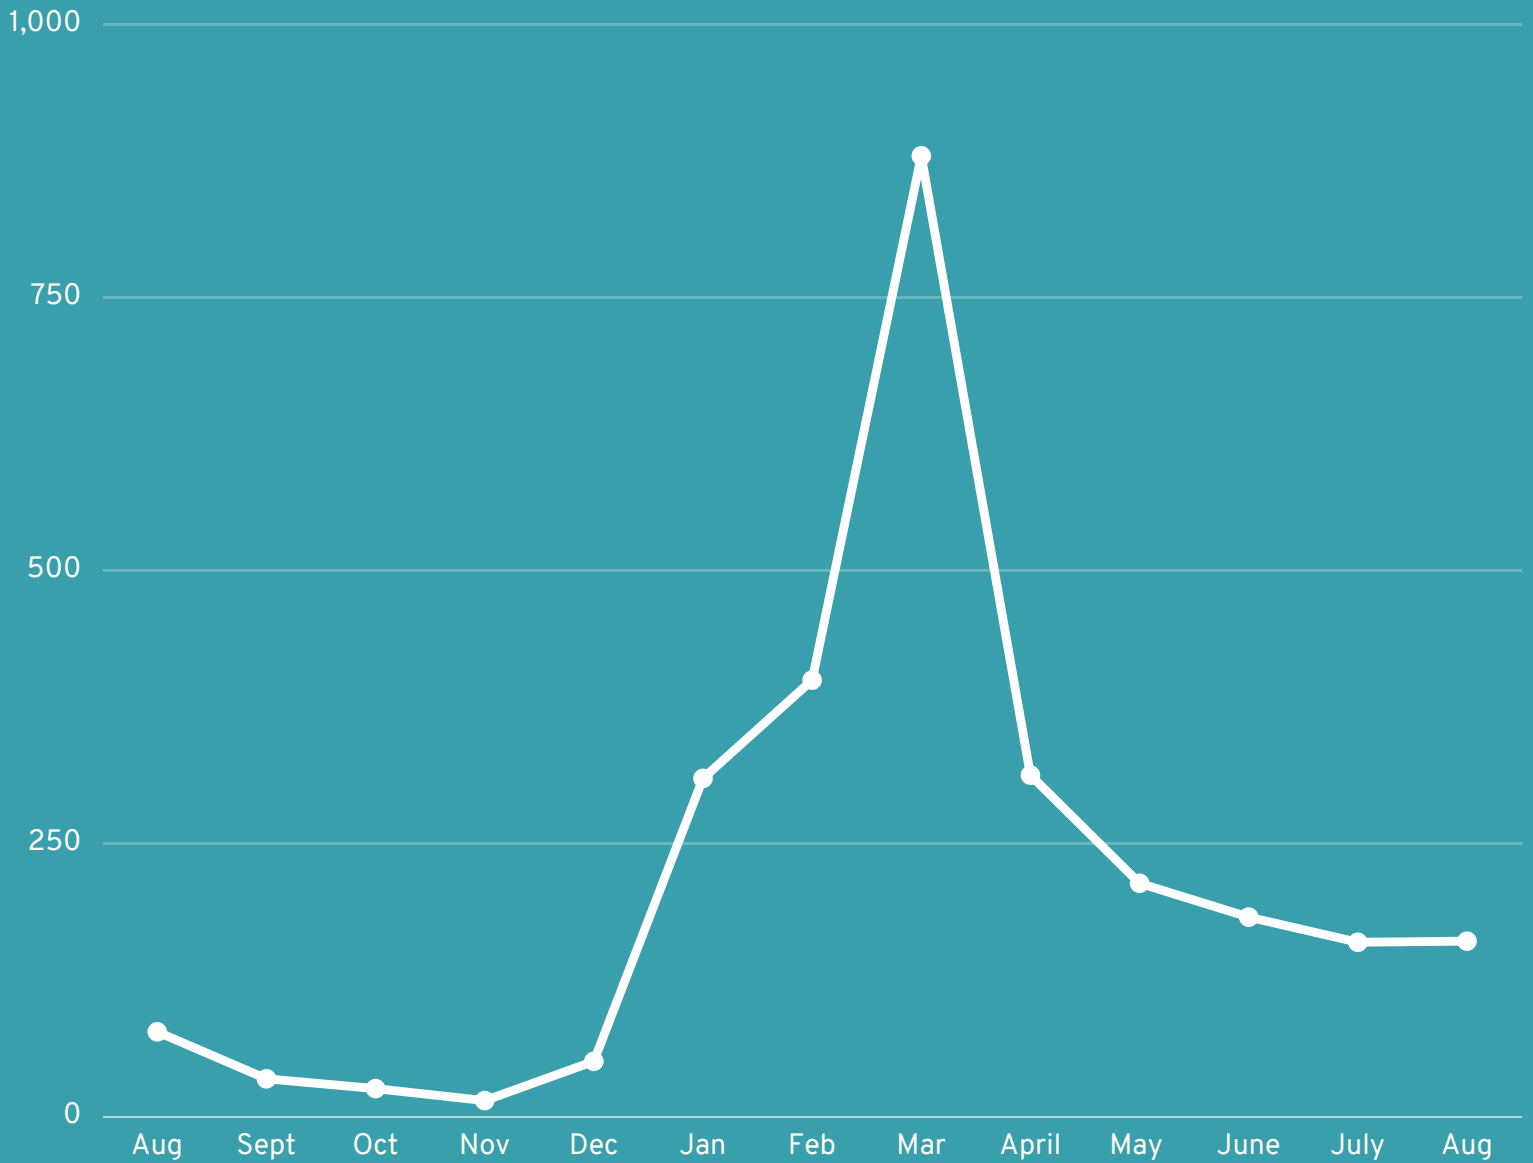

OT MENTORSHIP

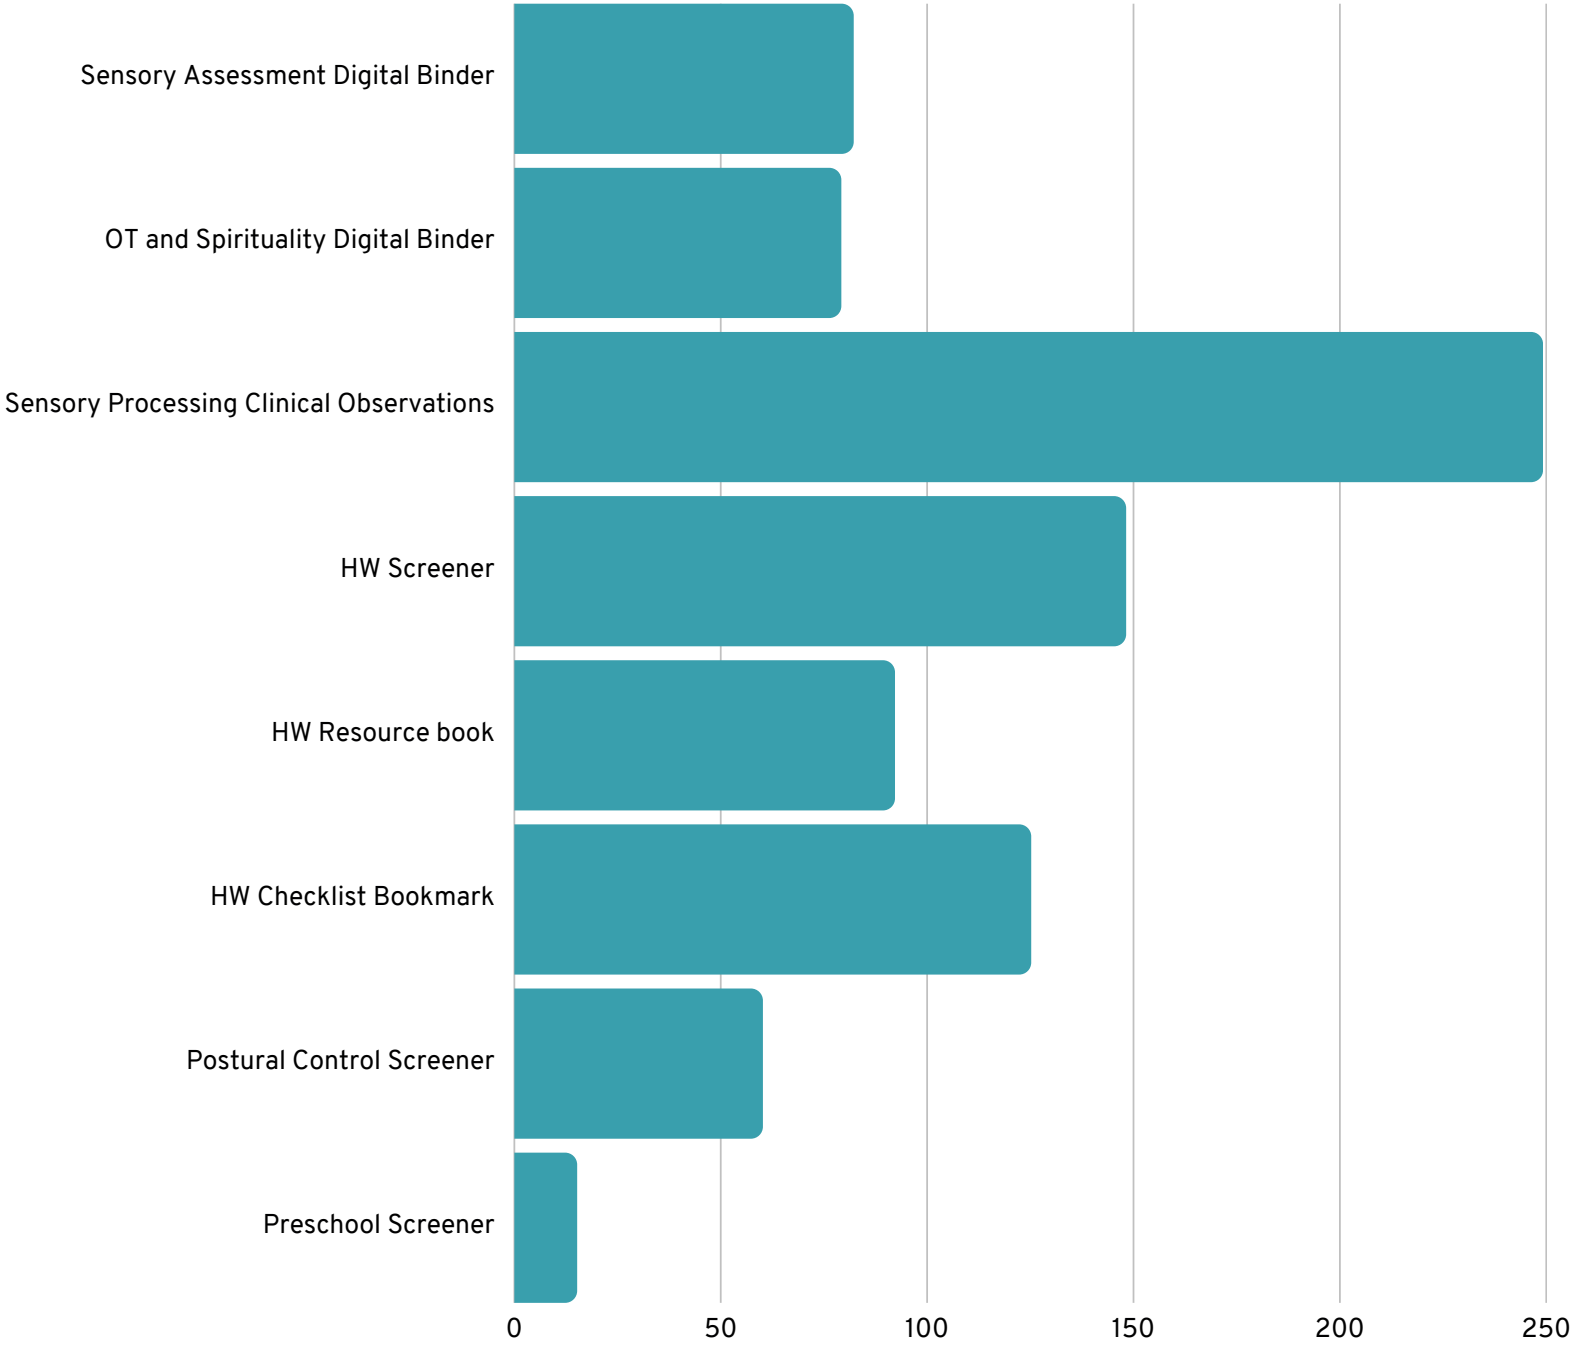

It is a privilege to mentor OTs and SLPs around the world. To date, over **158 hours** of one to one mentoring have been provided from 8/2022 through 8/2023.
